Demand Judicial Accountability!

Join Attorneys, Court Employees, Litigants & Court Reform Advocates from across the state as we gather outside the California Judicial Council Headquarters to protest the shocking lack of oversight of the CA Judicial Branch. Californians are being denied lawyers, court reporters, and effective relief from biased judges and corrupt branch officials. Court officials are ignoring the laws made by legislators to protect the public. The Governor and Attorney General claim they lack authority to address complaints about the Judicial Branch. Those who complain about this broken system suffer retaliation. **This will not change until change is demanded.**

Judicial Wall of Shame: Share your story!

We invite participants to bring personal photos and/or brief stories about their court ordeals to share on a Judicial Branch "Wall of Shame" that we are creating to document the atrocities being committed in California's "Broken Branch of Government."
